ENTREPRENEURSHIP EXPERIENCE

The Commons   Virtual Career Accelerator: October 2020 - November 2020
Selected as one of only 50 students from across Wisconsin to participate in a five-week virtual career development and innovation experience with The Commons.
- My team focused on solving voting rights for the incarcerated and we did so by creating a solution that would survey inmates to get their opinions on the current election.
- While working on this project, I was able to showcase my software skills that contributed to designing a wireframe for the website of our project.
- While developing my skills as a digital professional, I gained a deeper understanding of working with other like-minded individuals who have a variety of different backgrounds.

SKILLS

- Software: (Proficient) Java, C++, Python, SQL   (Familiar) C, C#, JavaScript, HTML/CSS
- Vast knowledge of OOP, Data Structures, Algorithms, and Source Control
- Ability to learn new languages and concepts quickly
